## Chapter 4 by Spirit

Bill Nye's eyes are everywhere. The universal law is now that 'Inertia is a property of matter.' and death to all who deny that fact. If someone was accused of denying inertia, they were executed by being placed on a steel table, suspended above a pit of saws. The platform would move quickly to the side, and if inertia wasn't real, they would survive. However, if inertia was real (Which it always was.) Your inertia would keep you from moving with the platform, and you would therefore fall into the saws.

Elementary school students were forced to learn Russian (As he is a Russian Spy.) And the

entire curriculum is based off of Bill Nye broadcasts. For some reason the average GPA is dropping astronomically, but the government blames this is due to the lack of effort in their students, and certain

Finally, all TV broadcasts were replaced with low quality, science based shows that were somewhat similar to the originals, with elementary students as the actors. Not many people have TVs anymore, 'tis a shame that they won't be seeing another season of "Richie! Eat your crust!"

The fact of the matter was, was that these "science shows" had no science in them at all in the least. It was just filler mixed with pro-Bill government propaganda and a hint of systematic oppression and forced labor.

A great example of this is episode 47,298 where Student Professor ALL HAIL BILL Jr. and his assistant BILL IS GOD the third make Bill Nye brand vanilla science pudding. midway through the episode, BILL IS GOD the third mixes a bit too hard and the pudding shows its true form, coagulating into a rock hard concrete mixture. You could see the soldiers in the background shake their heads and the color drain from the budding child scientist's face. He had failed. Episode 47,298 ended on the spot and BILL IS GOD the third was never heard from again.

That's a pretty mild example, but the fact of the matter is that Bill Nye controls everything, from the pudding you're allowed to buy to even the way your dog smells. I know not of what dark science magic they employ, only that the kind of tyrant to pull such a feat has long lost their mind.

### Chapter 6 by Samuel Hunter

Taking advantage of this control. Bill Nye continued selling Bill Nye-branded products from a colorful "Bill Nye's Little Scientist Notebook for Kids" to a "Big Nye's Scientist Adgenda for Completely Obedient Politicial Slaves", pre-filled with everything you are told to do.

Pre-Nye trading cards are confiscated and are replaced by "Bill Nye Trading Cards", where it shows different episodes of Bill Nye before the Pre-Nye era.

Bill Nye then controlled the media by forcing every show to start with his theme "Bill Nye the Russian Spy". Any jokes related to Bill Nye will be considered "Inscentific" and will be censored for the world to preserve Bill Nye's Name.

Bill Nye's face is everywhere. It is on the front of every product that you purchase. Sell and trade. Every piece of our currency shows the slogan "For Nye the Guy". His name is used,

reused, and desensitized to the public. Nothing is without Bill Nye.

### Chapter 7 by 154.-

Bill Nye, Bill Nye, Bill nye, bill nye, billnye billnye billnye billnye. The chant of the workers, the whistle of the rich, the name ceases to have any meaning.

As the actual guy, Bill Nye, looked out of his sustainable and architecturally sound building, he wondered how it had come to this. He'd become everything he despised, a product of the capitalist machine. He had told himself that, once he'd increased taxes on the rich, he'd use the money for good. To end poverty, for new scientific research, but the numbers became too overwhelming. Sometimes, he hated to admit it to himself, the lure of capitalism became too much. He'd made mistakes, and the media saturation sickened him.

He need to do something.

### Chapter 8 by Gwen Parker

Bill Nye the Science Guy should die.
